# Report on Review of Interim Condensed Financial Statements

To the Board of Directors and Shareholders of Public Joint Stock Company "Vimpel-Communications":

#### Introduction

We have reviewed the accompanying interim consolidated statement of financial position of Public Joint Stock Company "Vimpel-Communications" (a wholly-owned subsidiary of VEON Ltd.) and its subsidiaries (hereinafter collectively referred to as "VimpelCom") as of 30 June 2018, and the related interim consolidated income statements and statements of comprehensive income for the three and six months period then ended, changes in equity and cash flows for the six-month period then ended. Management is responsible for the preparation and presentation of these interim condensed consolidated financial statements in accordance with International Accounting Standard 34, "Interim Financial Reporting". Our responsibility is to express a conclusion on these interim condensed consolidated financial statements based on our review.

#### Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

#### Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial statements are not prepared, in all material respects, in accordance with International Accounting Standard IAS 34, "Interim Financial Reporting".

# 1. General information

Public Joint Stock Company "Vimpel-Communications" (PJSC "VimpelCom", together with its consolidated subsidiaries referred to as the "Group", "VimpelCom", the "Company" or "we") was registered in the Russian Federation ("Russia") on 15 September 1992 as a joint stock company of the closed type, re-registered as a joint stock company of the open type on 28 July 1993 and began full-scale commercial operations in June 1994. The Company was re-registered as an Open Joint Stock Company on 28 March 1995. The Company was re-registered as a Public Joint Stock Company on 19 June 2015.

The registered office of PJSC "VimpelCom" is located at Russian Federation, 127083, Moscow, Ulitsa 8-Marta, Dom 10, Building 14.

The interim condensed consolidated financial statements are presented in Russian Rubles ("RUB"). In these notes, Russian Ruble amounts are presented in millions unless otherwise indicated.

VimpelCom earns revenues by providing telecommunication services through a range of traditional and broadband mobile and fixed-line technologies.

As of 30 June 2018, the Company operated telecommunications services in Russia, Kazakhstan, Armenia, Uzbekistan, Georgia and Kyrgyzstan primarily under the "Beeline" brand name. In the second quarter of 2018, VimpelCom sold its operations in Laos (Note 3).

The interim condensed consolidated financial statements of the Company as of 30 June 2018 and for the three and six months ended 30 June 2018 were authorized for issue by the General Director on 17 August 2018.

# 2. Basis of preparation of the interim condensed consolidated financial statements

# **Basis of preparation**

The interim condensed consolidated financial statements have been prepared in accordance with International Accounting Standard ("IAS") 34 Interim Financial Reporting.

The interim condensed consolidated financial statements do not include all the information and disclosures required in the annual consolidated financial statements and should be read in conjunction with the Group's audited annual consolidated financial statements as of and for the year ended 31 December 2017, which have been prepared in accordance with International Financial Reporting Standards.

The preparation of these interim condensed consolidated financial statements has required Company's management to apply accounting policies and methodologies based on complex and subjective judgments, estimates based on past experience and assumptions determined to be reasonable and realistic based on the related circumstances. The use of these judgements, estimates and assumptions affects the amounts reported in the interim consolidated statement of financial position, interim consolidated income statement, interim consolidated statements of comprehensive income, interim consolidated statement of changes in equity, interim consolidated statement of cash flows as well as the notes to the interim condensed consolidated financial statements may differ from those reported in these statements due to the uncertainties that characterize the assumptions and conditions on which the estimates are based.

# New standards, interpretations and amendments adopted by the Group

The accounting policies adopted in the preparation of the Group's interim condensed consolidated financial statements are consistent with those followed in the preparation of the Group's annual consolidated financial statements as of and for the year ended 31 December 2017 except for the adoption of amended Standards that are mandatory for financial annual periods beginning on 1 January 2018.

# Notes to the unaudited interim condensed consolidated financial statements as of 30 June 2018 and for the three and six months ended 30 June 2018

# (All amounts in millions of Rubles unless otherwise stated)

# 2. Basis of preparation of the interim condensed consolidated financial statements (continued)

# New standards, interpretations and amendments adopted by the Group (continued)

A number of new and amended standards became effective as of 1 January 2018, the impact of which is described below. The Group has not early adopted any other standards, interpretations or amendments that have been issued but have not yet become effective.

# New accounting standards in 2018

The following table presents the transitional impact that adoption of IFRS 9 "Financial Instruments" ("IFRS 9") and IFRS 15 "Revenue from contracts with customers" ("IFRS 15") have had on the opening balance sheet of the Group, as of 1 January 2018.

	Impact of IFRS 9	Impact of IFRS 15	Total impact
	Impairment	Revenue and contract costs	of IFRS 9 and IFRS 15

Equity and liabilities Equity attributable to equity owners of the parent Non-controlling interests	(151) (18)	320 64	169 46
Other liabilities	-	(128)	(128)

#### IFRS 15 "Revenue from contracts with customers"

IFRS 15 replaces IAS 18 "Revenue" and IAS 11 "Construction contracts" and related interpretations. IFRS 15 addresses revenue recognition for contracts with customers as well as treatment of incremental costs incurred to obtain a contract with a customer, described in more detail below.

# **Revenue recognition**

Due to the nature of the Group's existing product offerings (i.e. prevailing pre-paid service offerings), as well as the Group's existing accounting policies, the impact of IFRS 15 on revenue recognition by the Group will be immaterial.

# Costs of obtaining a contract with customer

Under IFRS 15, certain incremental costs incurred in acquiring a contract with a customer ("contract costs"), which previously did not qualify for recognition as an asset under any of the other accounting standards, are deferred in the consolidated statement of financial position. Such costs relate primarily to commissions paid to third-party dealers and are amortized as revenue is recognized under the related contract, within the "Selling, general and administrative expenses" line item within the consolidated income statement.

The Group applies the practical expedient available in IFRS 15 for contract costs for which the amortization would have been shorter than 12 months. Such costs relate primarily to commissions paid to third-party dealers upon top-up of prepaid credit by customers and sale of top-up cards. The impact of capitalizing contract costs upon implementation of IFRS 15 is shown in the table earlier in this Note.

Notes to the unaudited interim condensed consolidated financial statements as of 30 June 2018 and for the three and six months ended 30 June 2018

(All amounts in millions of Rubles unless otherwise stated)

# 2. Basis of preparation of the interim condensed consolidated financial statements (continued)

# New standards, interpretations and amendments adopted by the Group (continued)

# New accounting standards in 2018 (continued)

# IFRS 15 "Revenue from contracts with customers" (continued)

# Transition

The standard is effective for annual periods beginning on or after 1 January 2018. The Group has adopted the standard using the modified retrospective approach, which means that the cumulative impact of the adoption has been recognized in retained earnings as of 1 January 2018 and that comparatives have not been restated.

The impact that adoption of IFRS 15 has had on the opening balance sheet of the Group, as of 1 January 2018, is shown in the table presented earlier in this Note.

# **IFRS 9 "Financial instruments"**

IFRS 9 replaces IAS 39 "Financial instruments: Recognition and Measurement" ("IAS 39"). IFRS 9 impacts the Group's classification and measurement of financial instruments, impairment of financial assets and hedge accounting, described in more detail below.

# **Classification and measurement**

The new standard requires the Company to assess the classification of financial assets on its balance sheets in accordance with the cash flow characteristics of the financial assets and the relevant business model that the Company has for a specific class of financial assets.

IFRS 9 no longer has an "Available-for-sale" classification for financial assets. The new standard has different requirements for debt or equity financial assets.

Debt instruments should be classified and measured either at:

- Amortized cost, where the effective interest rate method will apply;
- Fair value through other comprehensive income, with subsequent recycling to the income statement upon disposal of the financial asset; or
- Fair value through profit or loss.

Investments in equity instruments, other than those to which consolidation or equity accounting apply, should be classified and measured either at:

- Fair value through other comprehensive income, with subsequent recycling to the income statement upon disposal of the financial asset; or
- Fair value through profit or loss.

The company continues to initially measure financial assets at its fair value plus transaction cost upon initial recognition, except for financial assets measured at fair value through profit and loss, consistent with current practices. The classification of financial assets has not been impacted by the transition to IFRS 9 on 1 January 2018.

Notes to the unaudited interim condensed consolidated financial statements as of 30 June 2018 and for the three and six months ended 30 June 2018

(All amounts in millions of Rubles unless otherwise stated)

# 2. Basis of preparation of the interim condensed consolidated financial statements (continued)

# New standards, interpretations and amendments adopted by the Group (continued)

# New accounting standards in 2018 (continued)

# IFRS 9 "Financial instruments" (continued)

# Impairment (allowance for doubtful debt)

IFRS 9 introduces the Expected Credit Loss model, which replaces the incurred loss model of IAS 39 whereby an allowance for doubtful debt was required only in circumstances where a loss event has occurred. By contrast, the Expected Credit Loss model requires the Company to recognize an allowance for doubtful debt on all financial assets carried at amortized cost (including, for example, "Trade receivables"), as well as debt instruments classified as financial assets carried at fair value through other comprehensive income (for example, government bonds held for liquidity purposes), since initial recognition, irrespective whether a loss event has occurred.

As a result, the allowance for doubtful debt of the Company has increased upon implementation of IFRS 9 on 1 January 2018. The impact of applying the Expected Credit Loss model is shown in the table earlier in this Note.

# **Hedge Accounting**

IFRS 9 allows for more possibilities for the Company to apply hedge accounting (for example, risk components of non-financial assets or liabilities may be designated as part of a hedging relationship). In addition, the requirements of the standard have been more closely aligned with the Company's risk management policies and hedge effectiveness will be measured prospectively.

# Transition

The Group has adopted the standard using the modified retrospective approach for classification and measurement and impairment. This means that the cumulative impact of the adoption has been recognized in retained earnings as of 1 January 2018 and that comparatives are not restated.

All hedge accounting relationships existing as of 1 January 2018 have been continued under IFRS 9.

# New standards, interpretations and amendments not yet adopted by the Group

# IFRS 16 "Leases"

IFRS 16 replaces the IAS 17 Leases, the current lease accounting standard and will become effective on January 1, 2019. The new lease standard will require assets leased by the Company to be recognized on the statement of financial position of the Company with a corresponding liability. The Company is in the process of assessing the impact of IFRS 16, which is expected to be material, on the consolidated income statement and consolidated financial position upon adoption in 2019.

# IFRIC 23 "Uncertainty over income tax treatments"

The Interpretation clarifies the application of recognition and measurement requirements in IAS 12 'Income Taxes' when there is uncertainty over income tax treatments. The Group has yet to assess the impact of IFRIC 23, which may be material to the consolidated income statement and consolidated financial position upon adoption in 2019.

# 3. Significant transactions

# Exit from Euroset Joint Venture

On 7 July 2017, PJSC "VimpelCom" entered into a Framework Agreement with PJSC "MegaFon" ("MegaFon") to unwind their retail joint venture, Euroset Holding N.V. ("Euroset"). On 22 February 2018, the completion occurred in relation to the transaction to end their Euroset joint venture. Pursuant to terms of the transaction, PJSC "VimpelCom" acquired approximately half of Euroset's retail stores in Russia and paid to MegaFon RUB 1,250, subject to certain adjustments, while MegaFon acquired PJSC "VimpelCom"'s 50% interest in Euroset, resulting in MegaFon now owning 100% of Euroset. As a result of the transaction, PJSC "VimpelCom" has fully disposed of its interest in Euroset. Prior to the transaction, Euroset, Russia's mobile and electronics retail network, was co-owned by PJSC "VimpelCom" and MegaFon. The transaction was accounted for as an asset acquisition, primarily the acquisition of contract-based intangible assets representing the right to use of retail stores.

# Laos operations classified as held for sale

On 27 October 2017, VimpelCom Holding Laos B.V. ("VimpelCom Laos"), a subsidiary of the Company, entered into a Sale and Purchase Agreement for the sale of its operations in Laos to the Lao People's Democratic Republic ("Government of Laos"). Under the agreement, VimpelCom Laos transferred its 78% interest in VimpelCom Lao Co. Limited ("VIP Lao") to the Government of Laos, the minority shareholder, in exchange for purchase consideration of USD 22 million. Purchase consideration was received in two separate payments, on 8 December 2017 and 22 February 2018. The sale of operations in Laos was completed on 3 May 2018, which were previously classified as disposal groups held-for-sale. The effects of the disposals are detailed below:

Net cash consideration received (USD 22 million)	1,303
Derecognition of assets classified as held for sale	(1,230)
Derecognition of liabilities classified as held for sale	770
Derecognition of non-controlling interests	(306)
Release cumulative other comprehensive income related to disposal group	755
Gain on disposal	1,292

# Settlement agreement

On 20 April 2018 PJSC "VimpelCom" and the related party of the Group Tacom, LLC made a settlement agreement. On 23 April 2018, the settlement agreement between PJSC "VimpelCom" and Tacom, LLC was approved by the resolution of the Ninth Arbitration Appeal Court. The court decision came into force on 23 April 2018. As a result of the settlement agreement, VimpelCom's obligations under the mutual international traffic agreement in the amount of USD 20.8 million were terminated. In order to reflect this adjusting event, the Company adjusted the amounts of liabilities recognised in its financial statements (line "Trade and other payables") as of 31 March 2018 in the amount of USD 20.8 million (the equivalent to RUB 1,194 at the exchange rate provided by the Central Bank of Russia as of 31 March 2018).

# Dividends

On 29 June 2018, in the annual general meeting of shareholders of PJSC "VimpelCom" the decision was adopted to pay annual dividends in the monetary form based on 2017 financial year results: (1) to holders of common registered shares in the amount of seven hundred two rubles 5 kopecks per one common share for the total amount of RUB 36,001.84 for all common registered shares in the aggregate; and (2) to holders of preferred type "A" registered shares in the amount of 0.1 kopecks per one preferred type "A" registered share for a total amount of RUB 0.006 for all preferred type "A" registered shares in the aggregate. In July 2018, PJSC "VimpelCom" paid annual dividends to the shareholders based on 2017 financial year results in the amount of RUB 34,201.75, net of tax withheld. In accordance with Russian tax legislation, PJSC "VimpelCom" withheld a tax on dividend payments in the amount of RUB 1,800.09.

# 3. Significant transactions (continued)

#### Inventories

A significant increase in inventories was due to an increase in the number of retail stores acquired as a result of the completion occurred in relation to the transaction to end Euroset joint venture.

# 4. Segment information

Management analyzes the Group's operating segments separately because of different economic environments and stages of development in different geographical areas, requiring different investment and marketing strategies. Management of the Group does not analyze assets or liabilities by operating segments.

Management evaluates the performance of the Group's segments on a regular basis, primarily based on earnings before interest (both finance income and finance costs), income tax, depreciation, amortization, impairment loss, gain / (loss) on disposals of non-current assets, net foreign exchange gain / (loss), other non-operating gain / (losses) and share of profit / (loss) of joint ventures ("EBITDA").

The Company's reportable segments include Russia, Kazakhstan and Uzbekistan, HQ and Others. The segment HQ and Others includes our operations in Kyrgyzstan, Armenia, Georgia, and Laos as well as headquarter expenses, other unallocated adjustments and inter-company eliminations.

Financial information by reportable segment for the three and six months ended 30 June 2018 and 30 June 2017 is presented in the following tables. Inter-segment revenues between operating segments are on an arm's length basis in a manner similar to transactions with third parties. The segment data for acquired operations are reflected herein from the date of their respective acquisition.

# 7. Income taxes

Income tax expense is recognised in each interim period based on the best estimate of the weighted average annual income tax rate expected for the full financial year. Amounts accrued for income tax expense in one interim period may have to be adjusted in a subsequent interim period of that financial year if the estimate of the annual income tax rate changes.

Current income tax is the expected income tax expense, payable or receivable on the taxable income or loss for the year or period, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years.

Income tax expense consisted of the following for the three and six months ended 30 June:

		Three months ended 30 June		ended ne
	2018	2017	2018	2017
Profit / (loss) before tax	8,842	(3,095)	19,337	8,353

(All amounts in millions of Rubles unless otherwise stated)

# 7. Income taxes (continued)

The effective income tax rate for the three and six months ended 30 June 2018 amounts to 33% and 37%, respectively (2017: (27%) and 31%). In both these periods, the effective income tax rate was mainly driven by higher tax rate in Uzbekistan and new transition tax introduced in United States, which includes new requirements with respect to foreign income inclusion and deduction items, and other adjustments relating to Russia and Uzbekistan. In the three-month and six-month period ended 30 June 2017 the effective income tax rate was mainly driven by impairment of investments in joint ventures.

# 8. Property and equipment

During the six months ended 30 June 2018 and 2017, the Company had the following changes in property and equipment:

		Six months ended 30 June		
	2018	2017		
Net book value as of 1 January	204,661	237,011		
Additions	21,254	16,754

Net book value as of 30 June	200,578	218,901		

# 9. Intangible assets and goodwill

During the six months ended 30 June 2018 and 2017, the Company had the following changes in intangible assets and goodwill:

	Six months ended 30 June				
	2018		2017		
	Other intangible		Other intangible		
	assets	Goodwill	assets	Goodwill	
Opening net book value as of 1 January	31,249	100,814	35,565	106,617

Closing net book value as of 30 June	33,257	101,954	33,000	105,714	

Goodwill is tested for impairment annually (at 1 October) or when circumstances indicate the carrying value may be impaired. The Company's impairment test for goodwill is primarily based on fair value less cost of disposal calculations that use a discounted cash flow model. The key assumptions used to determine the recoverable amount for the different cash generating units were disclosed in the annual consolidated financial statements as of and for the year ended 31 December 2017.

The Company considers the relationship between market capitalization of VEON Ltd. and its book value, as well as weighted average cost of capital and the quarterly financial performances of each CGU when reviewing for indicators of impairment in interim periods.

There was no goodwill impairment recorded during the six months period ended 30 June 2018.

#### Fair value hierarchy

The fair value hierarchy ranks fair value measurements based on the type of inputs used in the valuation; it does not depend on the type of valuation techniques used:

- Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities;
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly;
- Level 3: inputs are unobservable inputs for the asset or liability.
