DISCLAIMER

This presentation contains “forward-looking statements”, as the phrase is defined in Section 27A of the U.S. Securities Act of 1933, as amended, and Section 21E of the U.S. Securities Exchange Act of 1934, as amended. These forward-looking statements may be identified by words such as “may,” “might,” “will,” “could,” “would,” “should,” “expect,” “plan,” “anticipate,” “intend,” “seek,” “believe,” “estimate,” “predict,” “potential,” “continue,” “contemplate,” “possible” and other similar words. Forward-looking statements include statements relating to, among other things, VEON’s plans to implement its strategic priorities, including operating model and development plans, among others; anticipated performance and guidance for 2021, including VEON’s ability to sufficient cash flow; VEON’s assessment of the impact of the COVID-19 pandemic on its current and future operations and financial condition; future market developments and trends; operational and network development and network investment, including expectations regarding the roll-out and benefits of 3G/4G/LTE networks, as applicable; spectrum acquisitions and renewals; the effect of the acquisition of additional spectrum on customer experience; VEON’s ability to realize the acquisition and disposition of any of its businesses and assets and to execute its strategic transactions in the timeframes anticipated, or at all; VEON’s ability to realize financial improvements, including an expected reduction of net pro-forma leverage ratio following the successful completion of certain dispositions and acquisitions; our dividends; and VEON’s ability to realize its targets and commercial initiatives in its various countries of operation. The forward-looking statements included in this presentation are based on management’s best assessment of VEON’s strategic and financial position and of future market conditions, trends and other potential developments. These discussions involve risks and uncertainties. The actual outcome may differ materially from these statements as a result of further unanticipated developments related to the COVID-19 pandemic, such as the effect on consumer spending, that negatively affected VEON’s operations and financial condition; demand for and market acceptance of VEON’s products and services; our plans regarding our dividend payments and policies, as well as our ability to receive dividends, distributions, loans, transfers or other payments or guarantees from our subsidiaries; continued volatility in the economies in VEON’s markets; including adverse macroeconomic developments caused by recent volatility in oil prices in the wake of COVID-19; unforeseen developments from competition; governmental regulation of the telecommunications industries; general political uncertainties in VEON’s markets; government investigations or other regulatory actions; litigation or disputes with third parties or other negative developments regarding such parties; the impact of export controls and laws affecting trade and investments on our and important third-party suppliers’ ability to procure goods, software or technology necessary for the services we provide to our customers; risks associated with data protection or cyber security, other risks beyond the parties’ control or a failure to meet expectations regarding various strategic priorities, the effect of foreign currency fluctuations, increased competition in the markets in which VEON operates and the effect of consumer taxes on the purchasing activities of consumers of VEON’s services. Certain other factors that could cause actual results to differ materially from those discussed in any forward-looking statements include the risk factors described in VEON’s Annual Report on Form 20-F for the year ended December 31, 2020 filed with the U.S. Securities and Exchange Commission (the “SEC”) and other public filings made by VEON with the SEC. Other unknown or unpredictable factors also could harm our future results. New risk factors and uncertainties emerge from time to time and it is not possible for our management to predict all risk factors and uncertainties, nor can we assess the impact of all factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements. Under no circumstances should the inclusion of such forward-looking statements in this presentation be regarded as a representation or warranty by us or any other person with respect to the achievement of results set out in such statements or that the underlying assumptions used will in fact be the case. Therefore, you are cautioned not to place undue reliance on these forward-looking statements. The forward-looking statements speak only as of the date hereof. We cannot assure you that any projected results or events will be achieved. Except to the extent required by law, we disclaim any obligation to update or revise any of these forward-looking statements, whether as a result of new information, future events or otherwise, after the date on which the statements are made, or to reflect the occurrence of unanticipated events.

PRESENTATION OF THE FINANCIAL RESULTS:

All non-IFRS measures disclosed further in this presentation (including, without limitation, EBITDA, EBITDA Margin, Operational Capex, net debt, equity free cash flow, local currency growth) are being defined and reconciled to comparable IFRS measures in VEON Ltd.’s earnings release published on its website on the date hereof. Reported growth is growth in Group’s reporting currency – USD. In addition, we present certain information on a forward-looking basis. We are not able to, without unreasonable efforts, provide a full reconciliation to IFRS due to potentially high variability, complexity and low visibility as to the items that would be excluded from the comparable IFRS measure in the relevant future period, including, but not limited to, depreciation and amortization, impairment loss, loss on disposal of non-current assets, financial income and expenses, foreign currency exchange losses and gains, income tax expense and performance transformation costs, cash and cash equivalents, long term and short-term deposits, interest accrued related to financial liabilities, other unamortized adjustments to financial liabilities, derivatives, and other financial liabilities.

1Q21 HIGHLIGHTS

Strong start to the year

Revenue and EBITDA growth in local currency...

Revenue	\$1,989mn (-5.1% reported YoY)	+4.3% YoY in local currency
EBITDA	\$875mn (-4.9% reported YoY)	+4.4% YoY in local currency
Operational Capex	\$425mn (+15.4% reported YoY)	24.7% Capex Intensity

...supported by operational achievements

Total mobile customer	213mn	+3.6mn YoY
4G penetration	41%	+10p.p.
4G users	87mn	+21mn YoY
Digital customers MAU	23mn	83% YoY

INFRASTRUCTURE

Local dedicated business units to re-shape tower value proposition

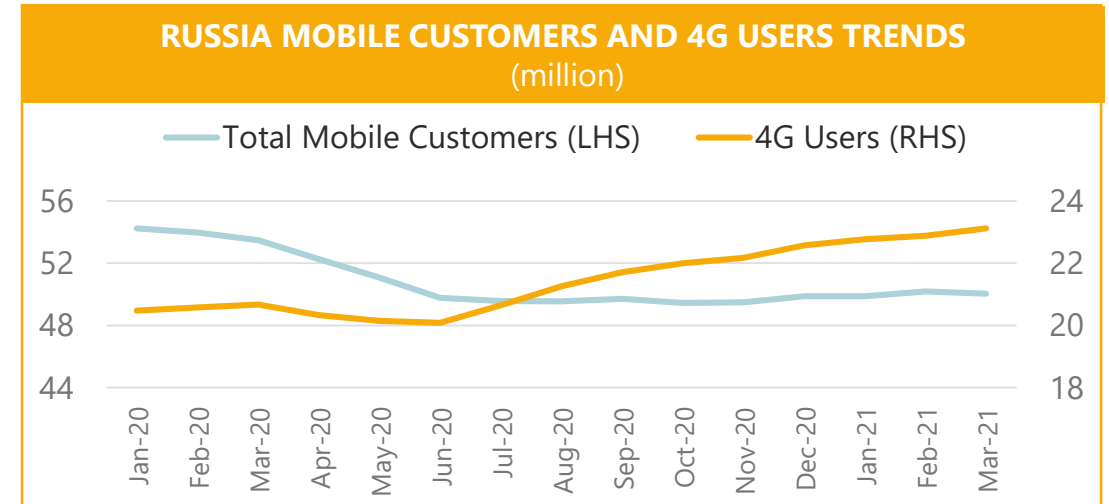

- More than 50,000 towers, covering 680+ million people, representing 9% of the world's population
- Leading footprint in some of the most vastly populated countries: vibrant underlying demographic and economic dynamics
- Limited presence of large independent towercos
- Significant future opportunities for network expansion and densification, particularly with 5G roll-out in the medium-term

Actively working on evaluation and execution of strategic alternatives for our tower infrastructure assets: from improving efficiency of operation to monetization

▼ - legal entities already in place

RUSSIA

After six quarters of work, revenue growth restored

- In Russia in particular, there was a significant step-up in network investment, which has supported the turnaround in the business
- New management team has ensured we moved at pace to improve the overall customer experience and execute on the network enhancement
- **Strong execution in Russia resulting in 1Q21 total revenue back to year-on-year growth**

- COVID-19 pandemic, first restrictions introduced in late 1Q20, followed by shops closure in 2Q20, resulting in limited sales during this period
- Due to ongoing restrictions low incoming migrant workforce from CIS countries and very low base of roaming customers total subscriber base is stable
- **The 4G subscriber base continues to track higher as 4G penetration increases within the existing subs base**

Note: February YoY performances in 2020 and 2021 have been adjusted to reflect normalized growth trend (29 days in 2020 vs. 28 days in 2021 and in 2019)

RUSSIA

Solid execution on all fronts

IMPROVED NETWORK EXPERIENCE

Leading 4G coverage in Moscow and Saint-Petersburg subways

After prioritizing wider main cities, 2021 network investment continues with capex intensity of 28% in 1Q21:

- +25% YoY 4G base stations;
- Consistent coverage in all cities with 100K+ population
- Improving quality in large urban areas
- Moscow region coverage including roads and villages

FOCUS ON LOYALTY IN PROMOTIONS

1Q21:

- Friends & family offers show double-digit growth
- "Z" offer added new digital features, fully managed through app
- Loyalty campaigns to support MyBeeline app adoption

IMPROVED CUSTOMER METRICS

Churn rate improvements (quarterly %)

Mobile Number Portability turned positive

1Q21:

- Self-care app: 8.5mn active users, +12% YoY
- Beeline TV: 2.9mn MAU, +28% YoY

RUSSIA

4G Country-wide upgrade plan continues to bear fruit, enabling multiplay

REVENUE
(RUB Billion)

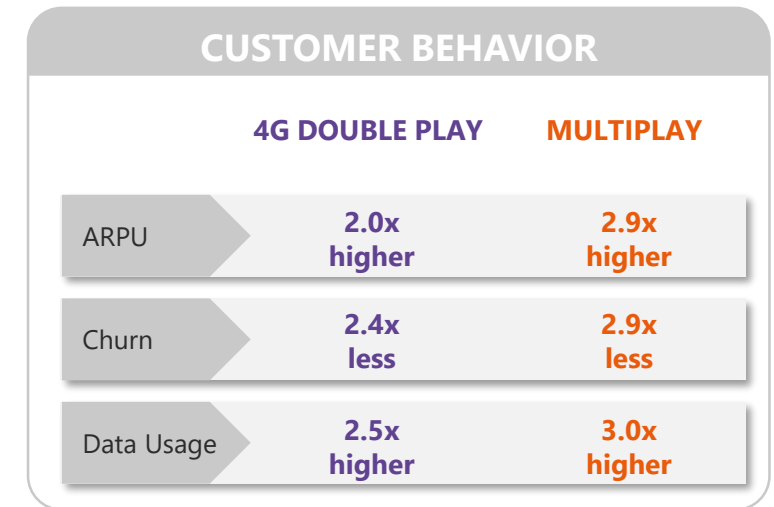

EBITDA
(RUB Billion)

4G USERS AND PENETRATION
(Million and %)

- Quarterly revenue back to YoY growth supported by:
 - 4G adoption approaching 50% of total base and higher device sales
 - B2B revenue growth of 11% YoY, including Big Data growth of 156%
 - Fixed-line revenue growth of 8% YoY
- Improving YoY revenue trends despite the loss in roaming, lower incoming migrant workforce and stricter content policy implemented by the Company.
- EBITDA impacted by higher network operating costs as a result of accelerated investment and by higher interconnect expenses

Notes:
4G penetration - % of Active 4G data users in total 3 months active customer base (excluding M2M)
4G Double Play and Multiplay ARPU, churn and data usage comparisons are based on one-month active subscribers

KAZAKHSTAN

Record levels of 4G penetration key driver of performance

REVENUE
(KZT Billion)

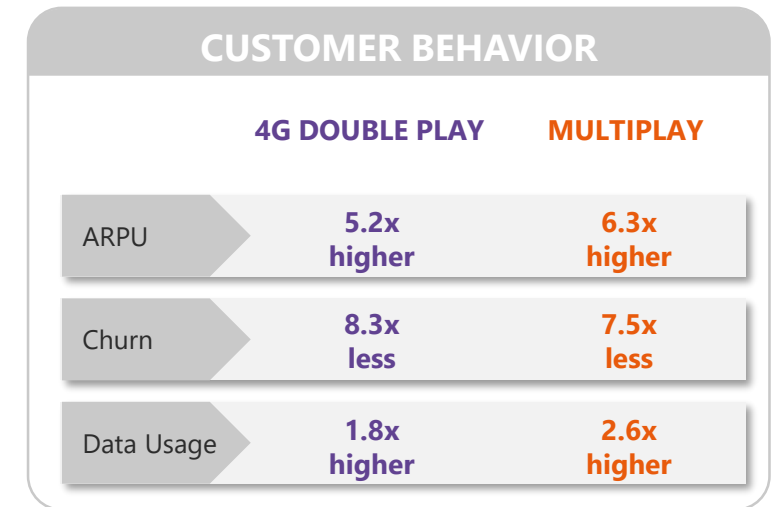

EBITDA
(KZT Billion)

4G USERS AND PENETRATION
(Million and %)

- Data revenue 56% of mobile service revenue (+7.4pp YoY) supporting B2C growth
- Growth of fixed-line revenue by +29% YoY and B2B revenue growth of 27% YoY
- Self-care app users reached 2.2 mn (+106% YoY)
- Beeline TV users up +73% YoY, reaching 386,000 SVOD subscribers
- Continuing growth in Izi by +362% YoY in MAU, reaching 54,000 subscribers
- Successful execution on device strategy supported by Big Data analytics

Note: 4G Double Play and Multiplay ARPU, churn and data usage comparisons are based on one-month active subscribers

UKRAINE

Growing 4G penetration supporting strong revenue and EBITDA trends

REVENUE
(UAH Billion)

EBITDA
(UAH Billion)

4G USERS AND PENETRATION
(Million and %)

- Strong 4G adoption driving ARPU expansion
- Data revenue growth of 28% YoY
- Positive revenue performance in B2B supported by growing penetration of multi-service agreements; Big Data revenue more than doubled YoY
- Fixed-line revenue growth of 17% YoY
- My Kyivstar app MAU reached 2.7mn (up 76% YoY)
- Strong uptake in new digital services: Football TV is up 40%, KS TV app users are 414,342
- Taken together, very remarkable results from core business and encouraging contribution from new revenue streams

CUSTOMER BEHAVIOR

	4G DOUBLE PLAY	MULTIPLAY
ARPU	2.9x higher	3.9x higher
Churn	5.5x less	7.3x less
Data Usage	2.4x higher	5.2x higher

PAKISTAN

Healthy growth across all metrics

REVENUE
(PKR Billion)

EBITDA¹
(PKR Billion)

4G USERS AND PENETRATION
(Million and %)

- Mobile subscribers of 69.2 million, +11.7% YoY
- Acceleration in 4G net additions with 3.7 million new users in 1Q21 supporting long-term growth ambitions
- Driving customer engagement through expanding self-care channels, over 8.5 million users, +66% YoY
- EBITDA impacted by JazzCash investments, adjusted for this Jazz EBITDA up 12.8% YoY
- Regulatory engagement on license renewal and tax matters continues

CUSTOMER BEHAVIOR

	4G DOUBLE PLAY	MULTIPLAY
ARPU	2.2x higher	3.1x higher
Churn	1.2x less	3.3x less
Data Usage	2.9x higher	4.2x higher

1. 3Q20 EBITDA was positively impacted by a reversal of a provision (PKR 8.6 billion)

Note: 4G Double Play and Multiplay ARPU, churn and data usage comparisons are based on one-month active subscribers

MAIN DEFINITIONS

Capital expenditures (capex) are purchases of new equipment, new construction, upgrades, licenses, software, other long-lived assets and related reasonable costs incurred prior to intended use of the non-current asset, accounted at the earliest event of advance payment or delivery. Long-lived assets acquired in business combinations, are not included in capital expenditures. **Operational capital expenditures (operational capex)** calculated as capex, excluding purchases of new spectrum licenses and capitalised leases. **Capex intensity** is a ratio, which is calculated as LTM operational capex divided by LTM revenue.

EBITDA (called Adjusted EBITDA in the Form 20-F published by VEON) is a non-IFRS financial measure. VEON calculates Adjusted EBITDA as (loss)/profit before interest, tax, depreciation, amortization, impairment, gain / loss on disposals of non-current assets, other non-operating gains / losses and share of profit / loss of joint ventures and associates. Our Adjusted EBITDA may be used to evaluate our performance against other telecommunications companies that provide EBITDA.

Additionally, a limitation of EBITDA's use as a performance measure is that it does not reflect the periodic costs of certain capitalized tangible and intangible assets used in generating revenue or the need to replace capital equipment over time. Reconciliation of EBITDA to net income attributable to VEON Ltd., the most directly comparable IFRS financial measure, is presented in the reconciliation tables section in Attachment C below. **EBITDA margin** is calculated as EBITDA divided by total revenue, expressed as a percentage.

Gross Debt is calculated as the sum of long-term notional debt and short-term notional debt including capitalised leases. **Net debt** is a non-IFRS financial measure and is calculated as the sum of interest bearing long-term debt including capitalised leases and short-term notional debt minus cash and cash equivalents, long-term and short-term deposits. The Company believes that net debt provides useful information to investors because it shows the amount of notional debt outstanding to be paid after using available cash and cash equivalents and long-term and short-term deposits. Net debt should not be considered in isolation as an alternative to long-term debt and short-term debt, or any other measure of the Company financial position. **Net debt excluding lease obligations** is a net debt less capitalised leases.

Equity free cash flow - is a non-IFRS measure and is defined as free cash flow from operating activities less cash flow used in investing activities, after license payments and lease payments (principal amount); excluding balance movements in Pakistan banking, excluding M&A transactions, inflow/outflow of deposits, financial assets and other one-off items. Reconciliation to the most directly comparable IFRS financial measure, is presented in the reconciliation tables section in Attachment C below.

Mobile customers are generally customers in the registered customer base as at a given measurement date who engaged in a mobile revenue generating activity at any time during the three months prior to such measurement date. Such activity includes any outgoing calls, customer fee accruals, debits related to service, outgoing SMS and MMS, data transmission and receipt sessions, but does not include incoming calls, SMS and MMS or abandoned calls. Our total number of mobile customers also includes customers using mobile internet service via USB modems and fixed-mobile convergence ("FMC").

Local currency trends (growth/decline) in revenue and EBITDA are non-IFRS financial measures that reflect changes in Revenue and EBITDA, excluding foreign currency movements and other factors, such as businesses under liquidation, disposals, mergers and acquisitions. For other factors please refer to section "non-recurring items that affect year-on-year comparisons".

All non-IFRS measures disclosed further in this presentation (including, without limitation, EBITDA, Operational Capex, net debt, equity free cash flow, local currency growth) are being defined and reconciled to comparable IFRS measures in VEON Ltd.'s earnings release published on its website on the date hereof.
